

Installation Instructions

Thank you for your purchase!

1

Remove/Clean!

Start at corner and remove old gasket, clean frame with soapy water.

2

Warm It!

Warm water (bucket/dishwasher) makes the gaskets easier to install.

3

Install It!

Start at the corners and work inward.

HOW TO STORE A GASKET

If you're not installing your gasket(s) immediately, please follow these storage instructions:

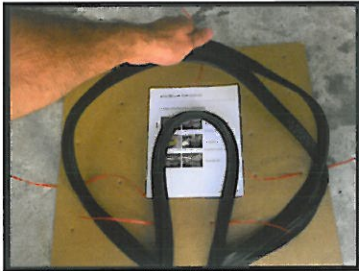

1

Remove from box

Remove gasket(s) and cardboard insert from box.

2

Remove from packaging

Undo twist ties and remove gasket(s) from cardboard insert.

3

Lay flat - do not hang

Unfold gaskets and lay flat on a shelf in a dry, conditioned space. It's OK to stack gaskets on top of each other, just don't hang.
